

# Organizational Culture and Environment

## Chapter Three

# The Manager: Omnipotent or Symbolic?

## Omnipotent View of Management

- ❑ Managers are directly responsible for an organization's success or failure.
- ❑ The quality of the organization is determined by the quality of its managers.
- ❑ Managers are held most accountable for an organization's performance yet it is difficult to attribute good or poor performance directly to their influence on the organization.

# The Manager: Omnipotent or Symbolic?

## Symbolic View of Management

- Much of an organization's success or failure is due to external forces outside of managers' control.
- The ability of managers to affect outcomes is influenced and constrained by external factors.
  - ❖ The economy, customers, governmental policies, competitors, industry conditions, technology, and the actions of previous managers
- Managers symbolize control and influence through their action.

# Parameters of Managerial Discretion

# The Organization's Culture

## Organizational Culture

- A system of shared meanings and common beliefs held by organizational members that determines, in a large degree, how they act towards each other.
- “The way we do things around here.”
  - ❖ Values, symbols, rituals, myths, and practices
- Implications:
  - ❖ Culture is a perception.
  - ❖ Culture is shared.
  - ❖ Culture is descriptive.

# Dimensions of Organizational Culture

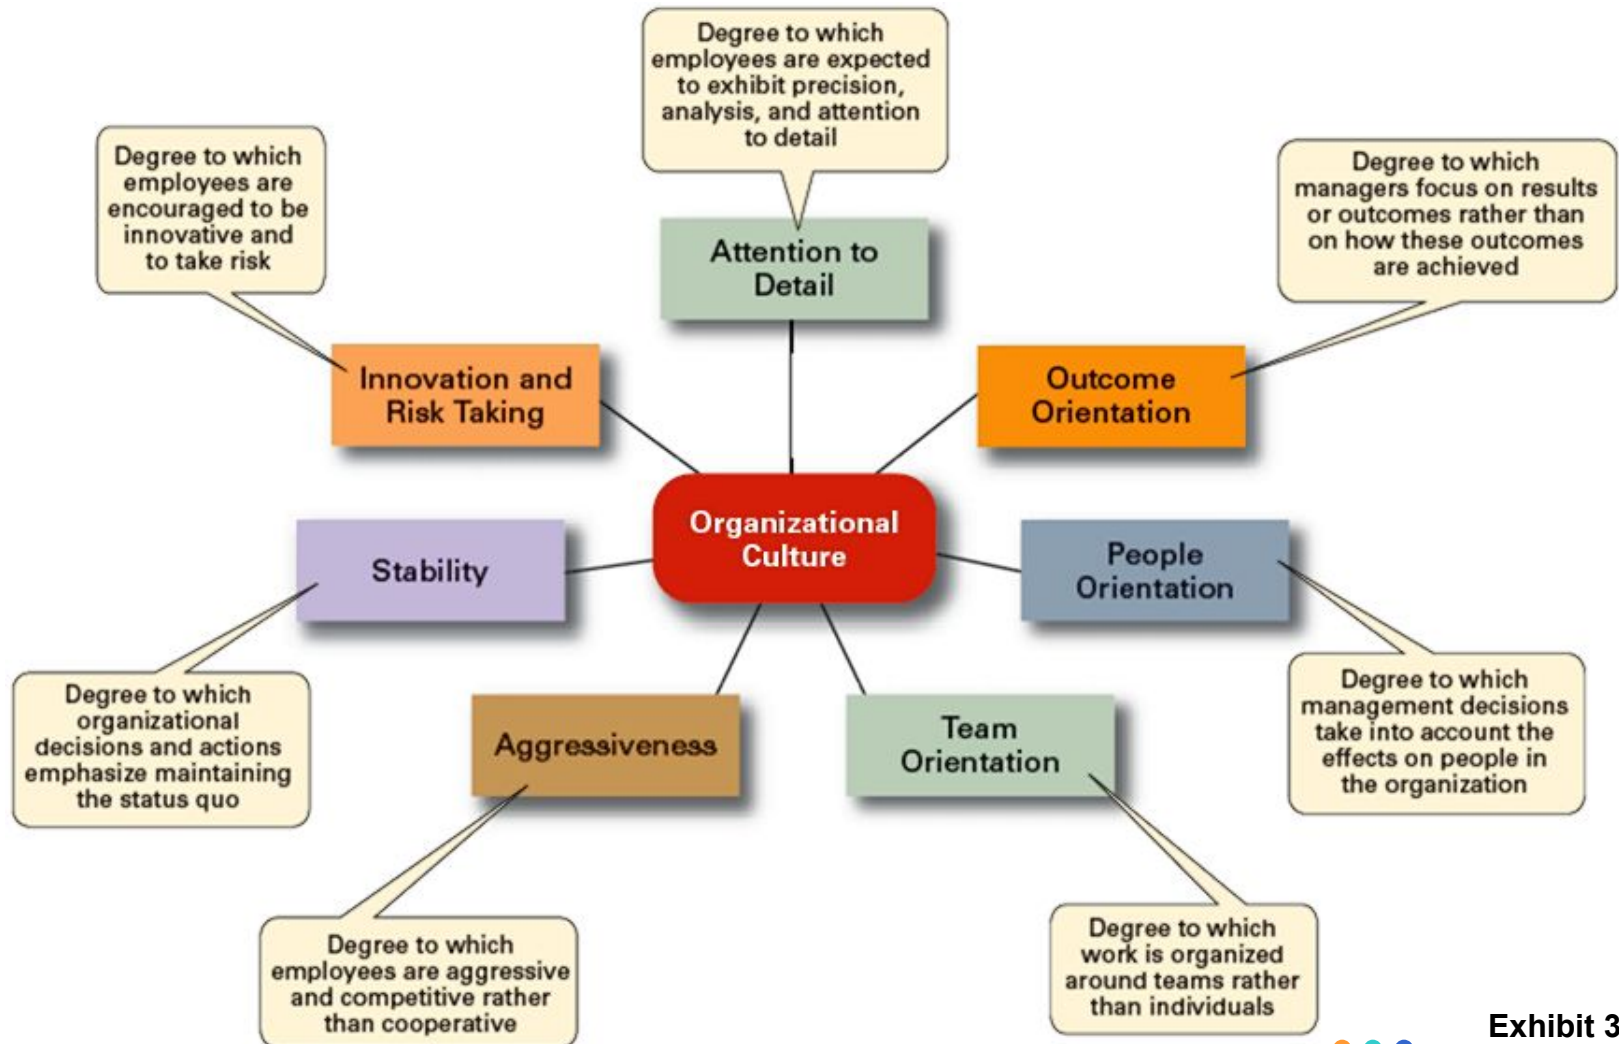

Exhibit 3.2

# Strong versus Weak Cultures

## Strong Cultures

- Are cultures in which key values are deeply held and widely held.
- Have a strong influence on organizational members.

## Factors Influencing the Strength of Culture

- Size of the organization
- Age of the organization
- Rate of employee turnover
- Strength of the original culture
- Clarity of cultural values and beliefs

# Benefits of a Strong Culture

Creates a stronger employee commitment to the organization.

Aids in the recruitment and socialization of new employees.

Fosters higher organizational performance by instilling and promoting employee initiative.

# Organizational Culture

## Sources of Organizational Culture

- The organization's founder
  - ❖ Vision and mission
- Past practices of the organization
  - ❖ The way things have been done
- The behavior of top management

## Continuation of the Organizational Culture

- Recruitment of like-minded employees who “fit”
- Socialization of new employees to help them adapt to the culture

# How an Organization's Culture Is Established and Maintained

# How Employees Learn Culture

## Stories

- Narratives of significant events or actions of people that convey the spirit of the organization

## Rituals

- Repetitive sequences of activities that express and reinforce the values of the organization

## Material Symbols

- Physical assets distinguishing the organization

## Language

- Acronyms and jargon of terms, phrases, and word meanings specific to an organization

# How Culture Affects Managers

## Cultural Constraints on Managers

- Whatever managerial actions the organization recognizes as proper or improper on its behalf
- Whatever organizational activities the organization values and encourages
- The overall strength or weakness of the organizational culture

Simple rule for getting ahead in an organization:

***Find out what the organization rewards and do those things.***

# Suggestions for Managers: Creating a More Ethical Culture

- Be a *visible role model*.
- Communicate *ethical expectations*.
- Provide *ethics training*.
- Visibly *reward ethical acts and punish unethical ones*.
- Provide *protective mechanisms* so employees can discuss ethical dilemmas and report unethical behavior without fear.

# Defining the External Environment

## External Environment

- The forces and institutions outside the organization that potentially can affect the organization's performance.

## Components of the External Environment

- **Specific/Micro environment:** external forces that have a direct and immediate impact on the organization.
- **General/Macro environment:** broad economic, socio-cultural, political/legal, demographic, technological, and global conditions that *may* affect the organization.

# The External Environment

# How the Environment Affects Managers

## Environmental Uncertainty

- The extent to which managers have knowledge of and are able to predict change their organization's external environment is affected by:
  - ◆ **Complexity of the environment:** the number of components in an organization's external environment.
  - ◆ **Degree of change in environmental components:** how dynamic or stable the external environment is.

# Stakeholder Relationships

## Stakeholders

- Any constituencies in the organization's external environment that are affected by the organization's decisions and actions

## Why Manage Stakeholder Relationships?

- It can lead to improved organizational performance.
- It's the “right” thing to do given the interdependence of the organization and its external stakeholders.

# Managing Stakeholder Relationships

1. Identify the organization's external stakeholders.
2. Determine the particular interests and concerns of the external stakeholders.
3. Decide how critical each external stakeholder is to the organization.
4. Determine how to manage each individual external stakeholder relationship.

# Managing in a Global Environment

## Chapter Four

# The Global Marketplace

## Opportunities and Challenges

- Coping with the sudden appearance of new competitors
- Acknowledging cultural, political, and economic differences
- Dealing with increased uncertainty, fear, and anxiety
- Adapting to changes in the global environment
- Avoiding parochialism

# What's Your Global Perspective?

## Parochialism

- Is viewing the world solely through its own eyes and perspectives.
- Is not recognizing that others have different ways of living and working.
- Is a significant obstacle for managers working in a global business world.
- Is falling into the trap of ignoring others' values and customs and rigidly applying an attitude of “ours is better than theirs” to foreign cultures.

# Adopting a Global Perspective

## Ethnocentric Attitude

- The parochialistic belief that the best work approaches and practices are those of the **home** country.

## Polycentric Attitude

- The view that the managers in the **host** country know the best work approaches and practices for running their business.

## Geocentric Attitude

- A **world-oriented** view that focuses on using the best approaches and people from around the globe.
